HERITAGE WIDE PLANK FLOORING & MILLWORK - SEMI-CUSTOM

The profiles on the next several pages are industry standards run from 5/4" material of your choice. These mouldings are thicker than our stock profiles, with styling that complements the architecture of fine homebuilding. These profiles can be run to order in any species of wood, as well as PVC or MDF. For paint grade mouldings, we recommend poplar.

Bridging the gap between our stock profiles and full custom profiles that require the creation of new knives, the knives for these mouldings are on hand and ready to be used on your next order. You get the custom look you want, in the material of your choice, with a quick turnaround and no added expense for custom knives.
